

Monday 15th June	P.E: See how many different activities you can do in 2 mins. E.g. jumps, hops etc	Phonics: Sing Jolly Phonics songs on Youtube Sing tricky words phase 2 on Youtube Sing Tricky words Phase 3 on Youtube	English Read Snail and the Whale by Julia Donaldson ' Watch Here Draw a whale in the middle of a piece of paper and colour. Around the whale use some adjectives to describe him. You can find some words in the book to help. <div> <div>Enormous</div> <div>huge</div>  </div>	Maths Warm Up : Count to 100 together. Spirals and patterns Activities Here 	Science: Volcano Experiment In the story the Snail and the Whale found a volcano. What you'll need: <ul style="list-style-type: none"> • Baking Soda (make sure it's not baking powder) • Vinegar • A container to hold everything and avoid a big mess! • Paper towels or a cloth (just in case) Instructions: <ol style="list-style-type: none"> 1. Place some of the baking soda into your container. 2. Pour in some of the vinegar 3. Watch as the reaction takes place! What's happening? The baking soda (sodium bicarbonate) is a base while the vinegar (acetic acid) is an acid. When they react together, they form carbonic acid which is very unstable, it instantly breaks apart into water and carbon dioxide, which creates all the fizzing as it escapes the solution. For extra effect you can make a realistic looking volcano. It takes some craft skills, but it will make your vinegar and baking soda eruptions will look even more impressive
